WestConnex Tunnels

Delivering Australia's largest road infrastructure project

Join M4-M5 Link Tunnels project Construction Director, Tim Brown for an informed update on the project's delivery and key challenges.

5.30 - 7.00pm | Thursday 14 March 2019

Hawken Auditorium
Level 1, 447 Upper Edward Street, Brisbane, QLD 4000

WestConnex is part of an integrated transport plan to keep Sydney moving: Easing congestion, creating jobs and connecting communities.

At around 30 kilometres in length, the project comprises the widening and extension of the New M4, duplication of the New M5, and connection of the two motorways to provide a long overdue underground link to create a seamless free-flowing western bypass of Sydney's central business district for motorists.

The evening will feature an informed update from Tim Brown: Construction

Director for the M4-M5 Link Tunnels, who will cover a number of the project's facets, including the **M4 Widening, M4 East, the New M5, M4-M5 Link Tunnels, and the Rozelle Interchange and Iron Cove Link.**

The night's schedule is as follows:

- 5.30 - 6.00pm | Assembly & light refreshments
- 6.00 - 6.45pm | Presentation
- 6.45 - 7.00pm | Questions & discussion
