

Extension of Time for Abstracts Submission AUSTRALASIAN TUNNELLING CONFERENCE

As a result of several requests for an extension, and mindful of how busy the start of 2023 has been, the ATC Conference Committee has decided to extend the abstract submission date until 30th April 2023.

We have had an excellent response to the initial call for papers so far and we are grateful to all who have already submitted. The process of abstract review has commenced and lead authors will be contacted presently.

However, for those who wanted to be part of the conference but have been delayed or simply 'too busy' at the start of 2023, now is your chance to finalise and submit the abstract (or gain approvals) for your paper using the conference website registration process.

We are pleased to note the very strong sponsorship interest in the event and are very grateful to the various industry leaders who have contacted us. We are looking to finalise these agreements very shortly with announcements to follow. Several opportunities to support this premier regional tunnelling industry event remain. Please refer to the conference website for details (atc2023.com) or contact Holly Adams at The Conference Company (ha@theconferencecompany.com).
