

# ANZ Photography Competition

Thanks to all the amateur photographers who submitted images for this competition. The next Photography Competition will open 1 July 2024, so get snapping now!

Moving the largest TBM in the southern hemisphere, by Taibel Rosas R.

TBM-1 "Bella," with a total weight larger than 2,000 Tonnes, was shifted 33 metres in a 24-hour period by using a steel sliding mechanism during its dismantling and burial process. West Gate Tunnel Project, Melbourne.

Taibel will receive a \$200 prize for this stunning image.

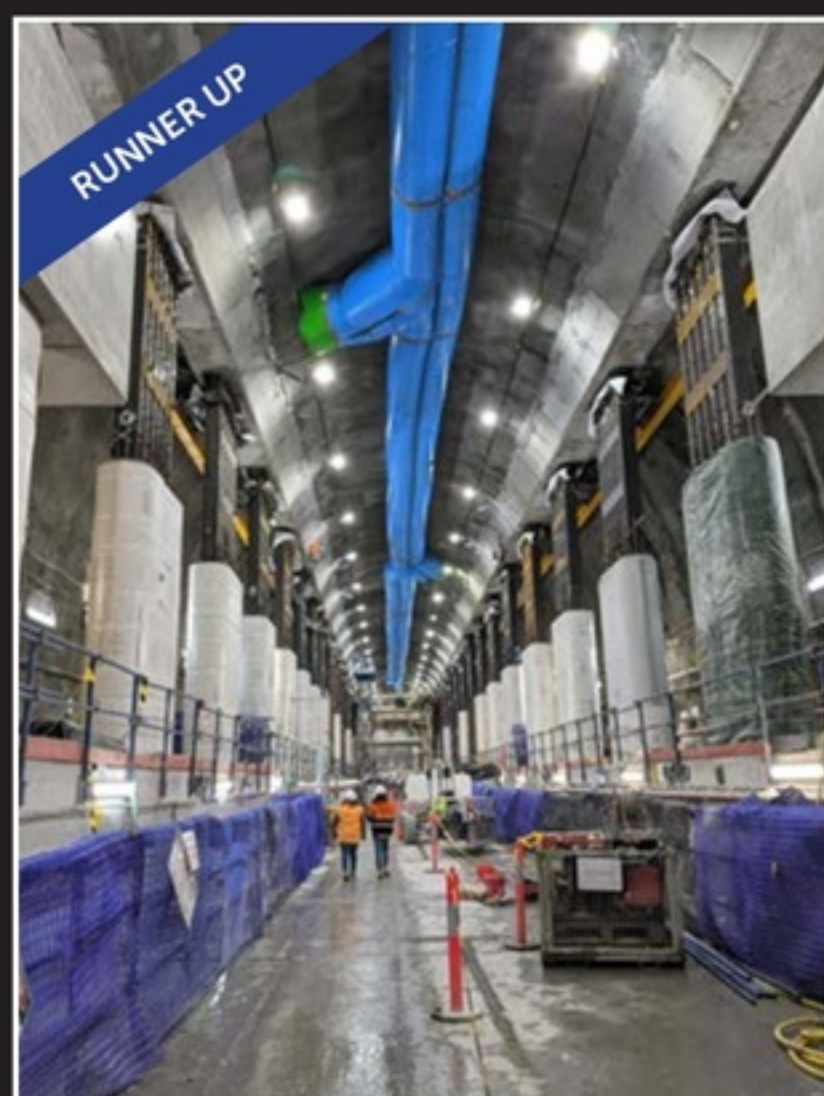

An assembly of self-supporting prefabricated arch reinforcement cage in the Town Hall Station cavern beneath Swanston Street. Melbourne Metro Tunnel Project, by Vern Lee

Vern will receive a \$200 prize for this fantastic cover shot.

Sydney Wine Cellar Construction, by Quinn Kenny

David Park installing face support boards for a residential tunnel on Sydney Harbour. The 15m long drive through sand is 2m beneath the footings of an existing 120-year-old heritage home with Sydney Harbour Bridge views. Bamser and PSM were involved in the design and delivery of the 3m wide drive, including ground treatment, steel lining temporary support and a permanent concrete lining. Darling Point Residential Tunnel by NorthAspect Building, Sydney.

Construction of cavern lining works in the Town Hall Station cavern beneath Swanston Street. Melbourne Metro Tunnel Project, by Vern Lee

Infill spraying process - Sprayed shotcrete process creating tunnel profile arch. Brisbane Metro Acciona ARUP JV, by Dallas Adams
